Subject: San Juan Mine Rescue Team - standby Red and Bonita Mine, San Juan County

Hello Chris,

I am contacting to request that the SJMRT be alerted to the fact that starting on July 21 th, we have underground operations that will commence. The project includes mucking and preparing the mine for constructing bulkhead at approximately 275 ft inby of the portal. CBI/Ex. 4§ the mining sub-contractor performing the underground work. Environmental Restoration is the prime contractor working directly for EPA.

Matt Francis is the Env Restoration project manager: His Phone is 303-994-6611

I am the project lead (OSC) for the EPA Emergency Response unit.

Attached are maps showing the location of the mine. Jess Fulbright, formerly SJMRT, had toured the location in past years associated with our request for similar support. . If there are specific numbers other than those on the attached roster (1/26/2015) I have for the SJMRT, please let me know that also.

Operations will be: Monday – Saturday, 0730 to 1730 beginning July 21 through September 3, 2015

Please let me know if you and the team have any questions and thank you.

Sincerely,

Steve
